| Riverview Drive         | 2700'        | \$ 300.000.00 |

Road Improvement Priority List In No Particular Order

\*\* This requires a wetlands review, permitting and drainage engineering. Currently a dirt road.

These estimates are based on drainage improvements, tree removal, and base preparation with a reclaimed and re-pavement to a thickness of no less than 4" of asphalt.

Each road will go through an evaluation, materials list, and estimated time schedule prior to work being performed.

Pinehurst and Wilbur Hill have been placed on a high priority as residents have filed complaints and petitioned the town for expedited repairs due to poor pavement conditions.

**Reclamation / Paving** 

Suggested

| CNN Road           | 12840' |               |
| West Shannock Road | 5300'  |               |

**Cost Estimate:** To be determined on finances and application options noted on next page RAO.

Pricing: As of 7-11-25 Liquid Asphalt \$ 635.00 Per Ton

Hot Mix / Top Coat \$ 86.00 Per Ton

Cold Patch \$160.00 Per Ton

Da-Lee Istarmac Permanent Road Repair 1 Skid 52 Pales and 12 spray cans \$ 2958.00 We don't use for Pot Holes Use for drainage. Storm grates that are collapsing.

# **Crack Sealing**

# **Crack Filling**

• July 8, 2025

| Road                    | Length |
|-------------------------|--------|
| Buttonwoods Rd.         | 4200'  |
| Hillsdale Rd.           | 21200' |
| Beaver River Rd.        | 11560' |
| Kenyon Hill Trail (New) | 6480'  |
| Fawn Dr.                | 1560'  |
| Meadowbrook Estates     | 6760'  |
| Shannock Hill Rd.       | 14260' |
| Grey Stoke Development  | 7275'  |
| Oakland Rd./ Box Turtle | 5930'  |
| Carolina Nooseneck      | 12840  |

### **Crack Sealing**

It is a long-term pavement preservation for active cracks that expand and contract with temperature. Also can last 3 to 8 years and is considered a permanent solution but more expensive.

Contractual Crack-Seal RIDOT Specs \$17.47 per gallon Crack Filling

It is a more temporary fix for smaller non-working cracks and may last only 1 or 2 seasons

It's more of a band-aid and doesn't have the same flexibility.

We should start with the latest reclaimed/paved roads that has started cracking and seam separation.

# **Instarmac Permanent Road Repair**

# Da-Lee

#### Applications

Instarmac Permanent Road Repair, is a Permanent Cold Lay Surfacing Asphalt Concrete for first time permanent repairs in asphalt. It offers the benefits of an instant, first time permanent restoration, which when compacted, can be trafficked immediately.

#### **Technical**

Instarmac Permanent Road Repair includes fully graded, high PSV interlocking aggregate as well as specially formulated bitumen, containing polymers and flexibilisers. It also forms part of the Instarmac Manhole Installation System.

#### **Application for a Pothole Repair**

- 1. Ensure area is clean from debris
- 2. Seal the pothole edges and substrates using Instarmac SCJ
- 3. Fill in hole with Instant Road Repair
- 4. Tamp down

#### **Application for First Time Permanent Repairs**

1. Saw cut a 'picture frame' around the repair or reinstatement area

- 2. Ensure the area is clear of debris
- 3. Seal vertical edges and substrate with Instarmac SCJ

Reinstatements requiring up to 4 inches in depth can be achieved by using the layer-on-layer method.

4. Apply the product to a depth of approximately 3 inches and compact to 2 inches in order to achieve your first layer.
5. Re-apply SCJ to vertical edges before a second layer of Instant Road Repair is applied
6. Repeat step 4 to achieve the 4 inch depth

#### Storage

Store inside above 41°F.

#### **Shelf Life**

Shelf life in correct conditions for sealed goods is 12 months. Delivered on shrink wrapped pallets.

#### Handling Guidelines

Instarmac Permanent Road Repair is manufactured and delivered within as short a time as possible to ensure fresh easy to lay material is supplied. It should be noted, if storage guidelines are not followed the material can appear stiff. By placing point load pressure on the bag, you will regain workability.

#### Health, Safety and Environmental

Please ensure that appropriate PPE is used when preparing, mixing and applying products. Always wash your hands before consuming food and make sure that materials are kept safely out of reach of children and animals. Please dispose of packaging and waste responsibly and in accordance with local authority requirements. A full material datasheet relating to this product is available from Da-Lee.

#### Quality Assurance

Our products are guaranteed against defective materials and manufacture, and will be replaced or money refunded if the goods do not comply with our promotional literature. We cannot however accept any liability arising from the application or use of our products because we have no direct or continuous control over where and how our products are used. All products are sold to our conditions of sale, copies of which can be obtained on request.

# Instarmac Permanent Pothole Repair®

#### Applications

Instarmac Permanent Pothole Repair<sup>®</sup> is a suitable solution for roads, pavements, driveways, airports and parking lots. The product can be trafficked instantly in wet, freezing and hot conditions and at the same time is compatible with the existing road surface. Instarmac Permanent Pothole Repair<sup>®</sup> can be applied at depths up to 2 inches. (Greater depths can be achieved by applying the layer-on-layer method).

#### **Technical**

Instarmac Permanent Pothole Repair® includes fully graded, high PSV interlocking aggregate and specially formulated bitumen and is supplied in recyclable 50lb containers.

#### **Recommended Application**

Pothole repairs can be achieved at any depth.

- 1. Ensure pothole is free of debris and standing water.
- 2. Apply Instarmac SCJ spray sealant to pothole edges.
- 3. Apply the product slightly proud of the pothole.
- 4. Compact with a hand tamper, or suitable mechanical alternative.

#### Storage

Store inside above 41°F.

#### Shelf Life

Shelf life in correct conditions for sealed goods is 12 months. Delivered on shrink wrapped pallets.

#### **Handling Guidelines**

Instarmac Permanent Pothole Repair<sup>®</sup> is manufactured and delivered within as short a time as possible to ensure fresh easy to lay material is supplied. It should be noted, if storage guidelines are not followed the material can appear stiff. By placing point load pressure on the bag, you will regain workability.

# Instarmac SCJ

# Da-Lee

#### Applications

SCJ is a bitumen cold joint sealer & tack coat spray that is applied onto vertical edges and the surface base before the application of asphalt. It will increase the bond of the material to the substrate and waterproof the area. This will significantly enhance the reinstatement's performance by preventing the ingress of water and freeze/thaw effect.

#### Technical

SCJ is supplied in 25 fl oz cans with the bitumen being discharged by inverting the container and pressing the spray button.

#### Preparation

Remove as much standing water and loose particles as possible prior to product application. The sealer can be applied to damp or dry surfaces.

#### Application

Hold the can tightly and shake vigorously before use. Invert the can and press the spray button. Cover the area to be sealed with long strokes from a distance of 7-10 inches working from the top downwards. Ensure that the entire surface is covered.

#### Cleaning

Point nozzle upward immediately after use and spray for a few seconds to clear it, taking care not to spray into wind. Failure to clean the nozzle after use could result in the aerosol becoming blocked rendering the product unusable.

#### Storage

Aerosol cans must NOT be exposed to direct sunlight or temperatures above 122°F. Store in a cool well-ventilated place.

#### **Shelf Life**

Shelf life in correct conditions for sealed goods is 12 months.

#### Health, Safety and Environmental

Please ensure that appropriate PPE is used when preparing, mixing and applying products. Always wash your hands before consuming food and make sure that materials are kept safely out of reach of children and animals. Please dispose of packaging and waste responsibly and in accordance with local authority requirements. A full material datasheet relating to this product is available from Da-Lee.
